“On-Site” Mobile Repair and PM Services

As an industry leader, we at ERS are always looking for ways to improve on the services that we provide to our customers.

We pioneered the environmental rental industry and now we are taking it to the next level. ERS is proud to announce its new preventative maintenance and mobile mechanical repair service department. Designed to keep your equipment working at its best so you can be productive and profitable.

ERS now offers “On-Site” Mobile Repair and PM Services. We offer services at your job site or facilities and we do this at your time and convenience, saving you valuable time and money. Our PM program is designed to keep your equipment in top operating condition. Our maintenance and inspection specialists are trained to look for problems and resolve them before they can cause unproductive down time. We provide:

- **Dedicated Genuine “Customer Service”**
- **Highly Skilled and Experienced Diesel Technicians**
- **DOT and Safety Inspections**
- **Full Texa Diagnostic Equipment**
- **Preventative Maintenance Programs for your fleet**
- **Repair and Service on Class 8 Trucks, all Fleet Vehicles, construction rolling stock and stationary plant equipment**
- **24/7/365 Heavy Equipment Repair and Service**

Why choose ERS for your PM’s

- PM program
- Multi-point inspection of chassis and module assembly components
- Increase up time and equipment productivity
- Prevent catastrophic failures
- Prevent safety and DOT issues
- Prevent spills
- Improve warranty compliance

We offer three levels of PM services to suit the needs of your company

Level One

- Non-contracted, respond on your request
- Just give us a call and our service technician will come to your Job site or deliver to our shop for us to perform necessary PM’s.

Level Two

- Your fleet Contracted with ERS, to perform scheduled PM intervals
- You monitor actual usage and scheduled PM’s with ERS or ERS will set up a schedule based upon historical usage.
- ERS will keep records of the services we perform

Level Three

- Your fleet Contracted and monitored with GPS, to perform scheduled PM intervals.
- We will install a GPS or use the customer’s existing GPS system to monitor the actual usage of the equipment to ensure that all PM intervals are performed as required.
- We will notify the customer within 50 hours of the PM being due.
- ERS will keep records of PM’s and repairs performed which can be assessable to the customer electronically

When a fleet vehicle is down, it is very costly to your business. Our goal is to service and repair your fleet to full operational capabilities quickly, while performing and completing the job accurately the first time, whether at your job site or facilities! If you decide to give us the opportunity to serve you and your fleet, you have our word and guarantee that the work will be performed with honesty and integrity and as quickly as possible. Our technicians are dedicated to maintaining your equipment at its utmost capability.

We would be happy to discuss our various PM and maintenance services with you. Our goal is to assist you in keeping your equipment in top operating condition.
